OUTSOURCING OF AFRICAN LANDS  
FOR ENERGY AND FOOD –  
CHALLENGES FOR SMALLHOLDERS

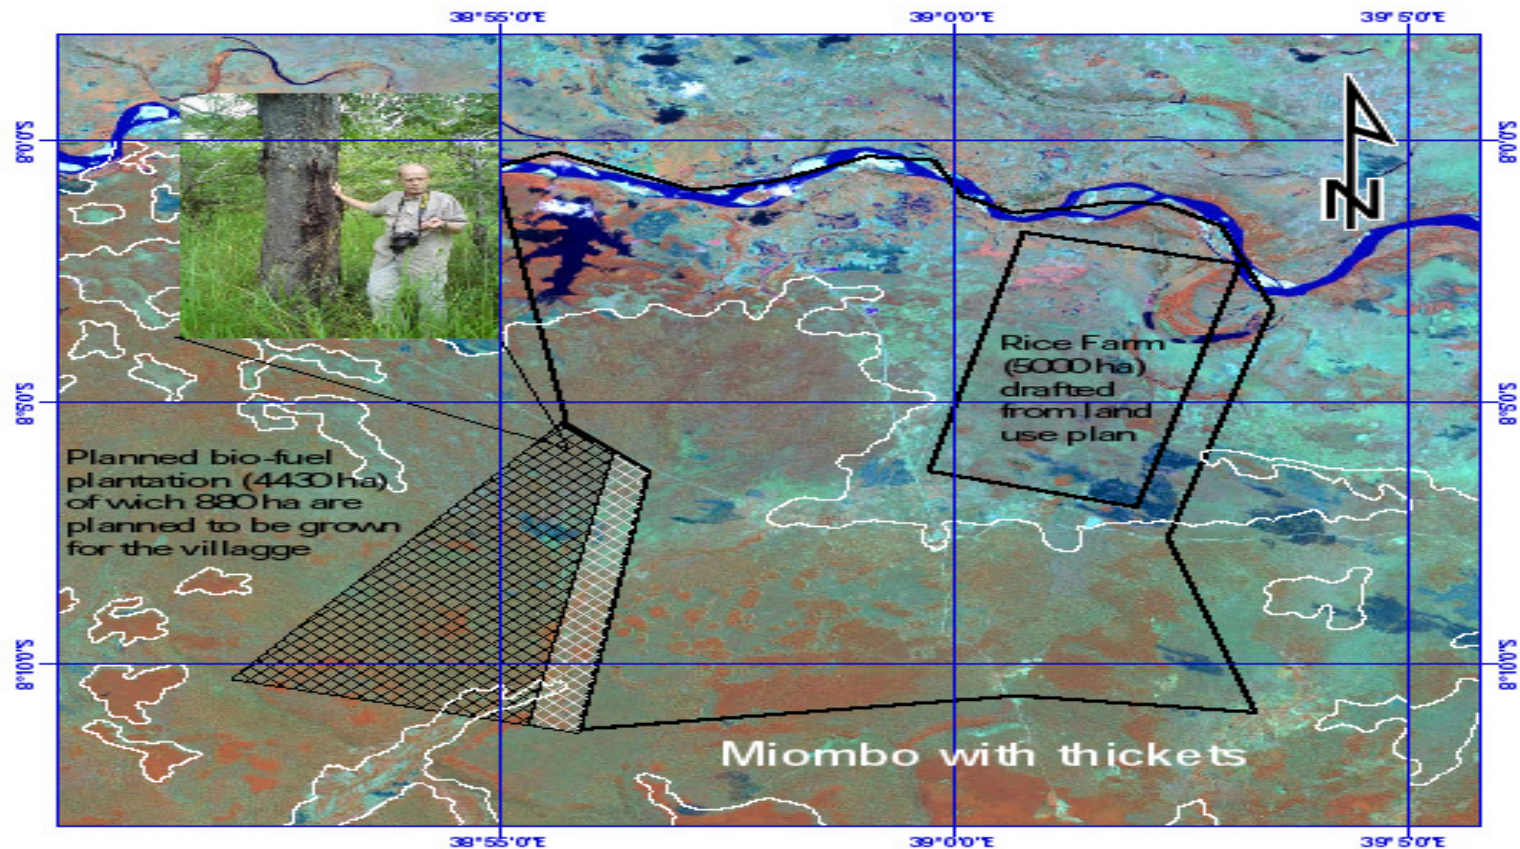

MAPS 1-5

## SEKAB Plans

Plans for sugarcane plantations according to information from villages and company documentation. The plans are in two degrees of certainty. The polygons are planned activities, while the ellipses are area of interest for sugarcane production. Achieved from SEKAB.

# SEKAB plantation plans for Nyamwage

## Legend

- OUTGROWER, Nyamwage
- SEKAB, Nyamwage
- VILLAGE, Nyamwage

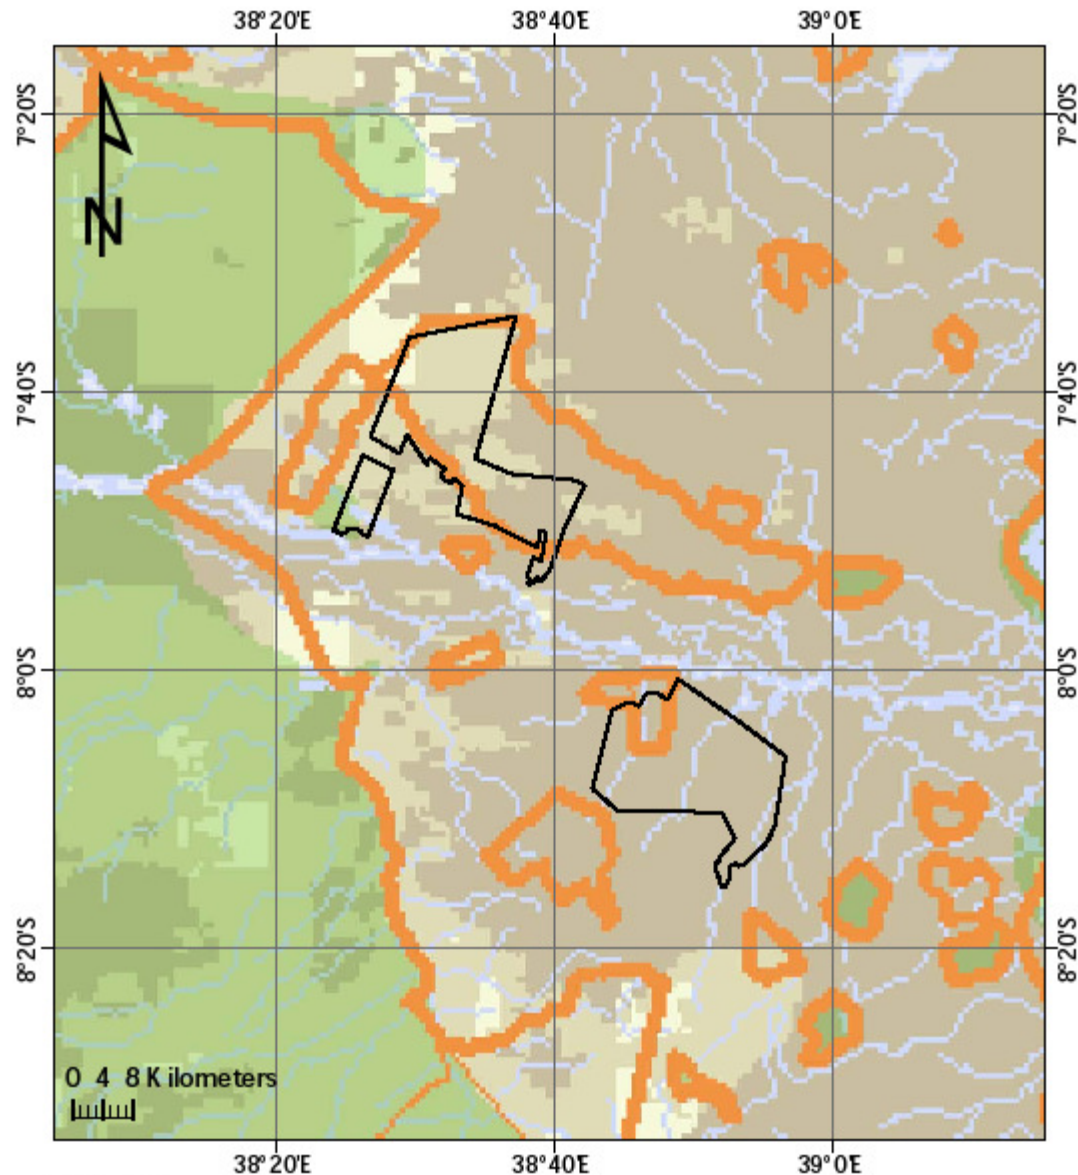

The plantation plans of SEKAB for the Nyamwage village according to the map made by SEKAB that are archived at the village office. The background is a SPOT 5 image from the 25th of June 2008. Showing that the whole area is covered with Miombo forest and smaller thickets. The photo shows a typical African hardwood, species xx and Allan Carlson WWF.
